

WELCOME

**BUK**

WHITEPAPER

# BUKED UP STORY

BUK's origins are about as fuked up as they **cum**. We crawled outta the gutter, and life's been a **fukin' mess** ever since.

**But you know what?** We wouldn't have it any other way. We thrive on chaos and uncertainty – **it's what makes us who we are.**

# BUKED UP VALUES

## FUK EVERYTHING, FUK EVERYONE

That's our creed, our guiding principle, our reason for being.

**We don't give a fuk** about fitting in or playing nice. We're all about embracing our **wild side** and doing whatever the fuk we want, whenever the fuk we want.

# THE ONLY GOAL

2024 ain't ready for what we've got in store. Our one and only goal is to... **become the fuking meta** of 2024.

**We're not here to play it safe** or follow the crowd – we're here to **shake shit up** and leave our mark on the crypto world, **whether you like it or not.**

# BUKENOMICS

Alright, let's break down the numbers 'cause **we ain't here to hide shit** from you.

## Degens — 15%

Yeah, you heard that right.

We're giving 15% of our supply straight to the degens 'cause we know they're the ones who really **fuking know how to party**.

They'll help spread the word and **keep the chaos alive**.

## Marketing — 3%

We ain't afraid to put our money where our mouth is.

**We're setting aside a solid 3%** for marketing 'cause we gotta get the word out somehow, **right?**

Whether it's billboards, social media ads, or skywriting, we'll **make sure** the world knows about BUK.

### CEX – 5%

We're not gonna lie – we wanna get listed on some of the **big exchanges**.

So we're setting aside 5% of our supply to make that happen.

'Cause let's face it, if you ain't **on a major exchange**, you might as well not exist in this game.

### Developers – 2%

We gotta keep the lights on somehow, **right?**

So we're allocating 2% of our supply to our developers 'cause **they're the ones making all this shit happen**.

Without them, we'd be nothing.

### Locked Liquidity – 75%

**We ain't about that rug-pull life.**

That's why we're locking up a whopping 75% of our liquidity so **you can trade with confidence**.

Ain't nobody gonna mess with our liquidity – it's locked up **tighter than Fort Knox**.

# WHAT'S NEXT

## Who the fuk knows!

We're just getting started, and the sky's the limit. One thing's for sure – **it's gonna be one hell of a ride.**

So strap in, hold on tight, and get ready for the chaos, 'cause **there's no turning back now.**

## *Let's wrap it up...*

**BUK ain't for the faint of heart.** We're rough around the edges, unpredictable, and we **don't give a fuk** what anyone thinks.

If you're ready to **embrace the chaos** and join us on this wild ride, then welcome to the BUK fam.

If not, well, you better **get the fuk outta here** before things get really messy.

**BUK's out.**
